

Updated 09 2010.

Accepted files/projects for mix:

A couriered external Hard Drive (firewire or USB), Data CD or DVD containing either:

- 7. Series pro-tools sessions: one session clearly marked for mixing per song
 - Logic 8 or 9 sessions: one project, clearly marked for mixing, per song, with all samples & included impulses.
 - 16 or preferably 24 bit.AIF or .WAV audio files (not 32bit), all rendered relative to each other, from bar 1 or 00.00,
 - All files must be labelled with content (i.e. Kick in, or Snare top, or Lead vocal,) rendered with no compression, eq, or FX, unless specifically wanted (please label file clearly)
 - All tracks must be at the same sample rate.
-
- On all sessions/files, record any effects that are part of the songs integrity. e.g, a guitar going through "Amp Farm" or a "Telephone Vox fx". Label it & send the original file with it.
 - All audio files should have been "cleaned" i.e. before consolidating or rendering, all pops, clicks, unwanted breaths, or other noises taken out, & all region fade ins, x-fade or fade outs should have been done.
 - A rough mix of the final arrangement should be sent inside the project folder
 - Any "reference material" should be sent as well (along with comprehensive production notes)
 - Please email us at info@lapastudios.co.za for a full & detailed quote, or any other questions
